CTesports BLAZAR1300 80+ GOLD FULL MODULAR PSU
BLAZAR 1300

DESCRIPTION

The Blazar1300 80+Gold is a full modular power supply with two lighting circuits both RGB: one on the ring around the fan and the other on the side with the CTesports logo that is so illuminated. The backlighting can be set with a button on the back of the power supply and it is possible to set 7 different fixed colors and 2 different RGB lighting effects with fade between the various colors.

The Blazar1300 is obviously a high-end power supply, every detail has been taken care of in the smallest details to satisfy the most demanding users, from the single 12V+ output with 105Ampere providing a full 1300watt (1260watt) cables including also 8 attacks for PCI-Express 6+2.
