DESCRIPTION	Mantra is a high fidelity gaming headset. There are no lights and frills, but high quality materials and high fidelity. Comfort and performance are of absolute standard. The pavilions adhere perfectly and the cap can be worn for hours without annoying pressures. The 53mm or neodymium speakers provide an incredible 300mWatt power. Mantra has a 3D surround system and ANC (Active Noise Canceling) which, combined with 4 different selectable equalizations (basic, gaming, music and cinema) make the world of high fidelity enter not only in listening to good music but also in gaming and esports.
